heart, aeundae tidal wave 720p mkv, sweet, love, black and white The classic noir movie "Casablanca" is set in the city of Casablanca during World War II. The Nazi occupying power has seized control of the city from Switzerland's safe haven status to try to take over the world. In the midst of this oppressive regime that threatens any enemy that dares speak out against their regime is Rick Blaine (played by Humphrey Bogart), an American expatriate who owns a bar in Casablanca. His young wife Ilsa (Shirley MacLaine) and his friend Sam (Claude Rains) join him in beginning a resistance movement to liberate the citizens of Casablanca and throw out the Nazi occupiers. The movie is about them and their friends, family members and loved ones trying to make changes during war times. Phoebus Films, a Korean film production company, released "Heart" on video in 2008. Director Kim Hyun-sang did not like "Casablanca". He wanted to create a drama about an innocent man caught up in all the wrong circumstances with no one to help him. He wanted to tell the story of a man who is utterly dependent on others in an oppressive political situation, but managed to find hope and love. For Kim Hyun-sang, the element of the tidal wave was the concept behind "heart". The idea was to express love in an imperfect way using something for which there is no perfect metaphor like the tide. He also wanted to emphasise friendship between men by giving them much more common interests than women, women who are used to all coming together against political oppression for love of their country. "Heart" was characterized by elaborate, elaborate scenes that were designed with much care and intention towards coherence and meaning despite each scene's seemingly unrelated framing. Despite the complexity of the symbolism, there is a general tendency to place blame on one or more of the characters for causing the tide. Nonetheless, it is clear from what happens to Rick's friends and family that he has been betrayed by them. As a result, he focuses all his energy on outwitting his enemies and trying to free himself from their influence. This theme of betrayal plays a large role in the story as a whole as it clearly indicates that Rick's tragedy is not just about having lost Ilsa but also his imprisonment by those he trusted deeply. With no political leader cleverer or more powerful than him, his fate was really in their hands. One of the crucial elements in "Heart" is Rick's tie. It has a great significance in understanding his character. From the beginning of the film, it is clear that the tie was important to Rick; he never takes it off and he even carries it in his pocket when he does not need it. With this tie, one can see how obsessed with Ilsa Rick has become. When he meets Ilsa again at the cafe, his tie falls to the floor just before she arrives. It represents how forcefully fate will force them together again no matter what they do to get away from each other.
